BUILDING CAPACITY

WICOR is the "How"

WICOR is the "How" in your lesson planning. As you design your lesson plan, you factor into your lesson design "how" students will access the content, access the language and produce their own content. That is where WICOR comes into the play.

Here is an example of a WICOR Wall created by Mr. Aragon. If you would like some help from students working on service hours, please click the WICOR wall and complete the request form!

What is Evidence of Lesson Planning?
Students should be able to articulate..

- What are students learning?
- How will students learn it?
- How will students be assessed?
- Why are students learning it?

COLLEGE & CAREER READY

Preparing for a Career in Fire

The mission of the Wilson High School Firefighter Academy Magnet is to offer the opportunity for students to learn about a career in the Fire Service and Emergency Response in collaboration with the Los Angeles City Fire Department. Students are provided with life learning opportunities with hands on experiences to develop career skills, knowledge, and abilities to prepare and understand what is required to attain a career in Emergency Response. In keeping with the mission, currently, 11th graders in the Fire Academy are undergoing an 11 week training program with the LA City Fire Department. This week, the focus was on putting out ABC Fires.
